

BIBLIOGRAPHY.

N.B.—This bibliography is simply representative, not in any way exhaustive. It may be supplemented by that of Delage.

The books which should be read first are indicated in the subject-index under the title "Best books to begin with."

1901. ADAMI, J. GEORGE : An Address on Theories of Inheritance, with Special Reference to the Inheritance of Acquired Conditions in Man. *Brit. Med. Journal*, No. 2109, June 1. pp. 1317-1323, 2 figs. [Criticises Weismann's position and proposes a modified theory.]
1815. ADAMS : A Philosophical Treatise on Hereditary Peculiarities. 2nd ed. 1815.
1904. ALLEN, G. M. : The Heredity of Coat Colour in Mice. *Proc. Amer. Acad.* xl. pp. 61-163, 7 figs.
1893. AMMON, OTTO : Die natürliche Auslese beim Menschen. Fischer, Jena. pp. 326. [A valuable work.]
1895. — Die Vererbung erworbener Eigenschaften. *Nat. Wochenschr. Berlin* x. p. 386.
1896. — Der Abänderungsspielraum : ein Beitrag zur Theorie der natürlichen Auslese. *Nat. Wochenschr.* xi. pp. 137-143, 149-155. Also separately, Dümmler, Berlin. pp. 54.
1900. — Die Gesellschaftsordnung und ihre natürlichen Grundlagen. Fischer, Jena.
1899. ANTHONY, R. : *Bull. Soc. Anthropol. Paris*, x. 1899, p. 303. [Progeny of Manx cat.]
1892. ARLIDGE, J. T. : The Hygiene, Diseases and Mortality of Occupations. Percival, London. pp. xx + 568.
1890. ARRÉAT, L. : Récents Travaux sur l'Hérédité. *Rev. Philos.* xxix. pp. 399-419.
1872. ASKENASY, E. : Beiträge zur Kritik der Darwin'schen Lehre. 8vo. Leipsic.
1894. BAILEY, L. H. : Neo-Lamarckism and Neo-Darwinism. *Amer. Natural.* xxviii. pp. 661-678.

1896. BAILEY, L. H.: The Survival of the Unlike: a Collection of Evolution Essays suggested by the Study of Domestic Plants. New York, pp. 515, 3rd ed., 1899.
1904. ——— Plant-Breeding: Five Lectures upon the Amelioration of Domestic Plants. 3rd ed., MacMillan Co., New York. pp. 334. [A luminous study of plant-breeding with an exhaustive bibliography.]
1889. BAILLET, C.: De l'Atavisme et de l'Origine des Reproducteurs chez les Principaux Espèces d'Animaux Domestiques. *Mém. Acad. Toulouse*, x. pp. 314-341.
1893. ——— Quelques Mots sur les Croisements dits au Premier Sang, chez les Animaux Domestiques. *Mém. Acad. Toulouse*, v. pp. 128-143.
1895. ——— Du Croisement continu dans les Races d'Animaux Domestiques. *Mém. Acad. Toulouse*, vii. pp. 141-160.
1885. BALBIANI, E. G.: Contribution à l'Étude de la Formation des Organes Sexuels chez les Insectes. *Rec. Zool. Suisse*, ii. pp. 525-588, 2 pls.
1888. ——— Les Théories Modernes de la Génération et de l'Hérédité. *Revue Philos.* No. 12, December.
1896. BALDWIN, J. MARK. A New Factor in Evolution. *Amer. Natural.* xxx. pp. 441-451, 536-553. Cf. *Science*, iv. p. 139.
1896. ——— Dictionary of Philosophy and Psychology.
1896. ——— Heredity and Instinct. *Science* iii. pp. 438-441, 558-561. Cf. p. 669.
1896. ——— Physical and Social Heredity. *Amer. Natural.* xxx. pp. 422-428.
1897. ——— Organic Selection. *Nature* lv. p. 558.
1902. ——— Development and Evolution. Including Psychophysical Evolution, Evolution by Orthoplasy, and the Theory of Genetic Modes. MacMillan Co., New York, pp. 395.
1890. BALL, W. PLATT: Are the Effects of Use and Disuse Inherited? London, 156 pp.
1897. BALLANTYNE, J. W: Teratogenesis: an Inquiry into the Causes of Monstrosities. History of the Theories of the Past. Oliver and Boyd, Edinburgh, pp. 62.
1904. BALLOWITZ, E.: Das Verhalten der Muskeln und Sehnen bei Hyperdaktylie des Menschen im Hinblick auf die Actiologie dieser Missbildung. *Verh. Anat. Ges.; Anat. Anzeig.* xxv. *Ergänzungsheft*, pp. 124-135, 3 figs. [Hyperdaktylism is due to a teratological splitting of the primordium, and is not atavistic.]

1885. BAMBEKE, CH. VAN: Pourquoi nous ressemblons à nos Parents. Bruxelles. pp. 48. Also in *Bull. Acad. Belg.* x. pp. 901-944.
1891. BARFURTH, D.: Versuche zur funktionellen Anpassung. *Arch. mikr. Anat.* xxxvii.
1894. — Die experimentelle Regeneration über schüssiger Gliedmassenteile (Polydactylie) bei den Amphibien. *Arch. Entwicklungsmech.* 1.
1905. BARRINGTON, AMY; LEE, ALICE; and PEARSON, KARL: On the Inheritance of Coat-Colour in the Greyhound. *Biometrika* iii. p. 245.
1906. BARRINGTON, A. and PEARSON, K.: On the Inheritance of Coat-Colour in Cattle. Part I. Shorthorn Crosses and Pure Shorthorns. *Biometrika* iv. p. 427.
1900. BARTHELET, M.: Expériences sur la Télégonie. *Comptes Rendus Acad. Sci. Paris* cxxxi. pp. 911-912.
1900. BATAILLON, E.: Blastotomie Spontanée et Larves Jumelles chez *Petromyzon planeri*. *Comptes Rendus Acad. Sci. Paris*, cxxx. p. 1201. Cf. also *Pression Osmotique de l'Œuf et Polyembryonie Expérimentale. Ibid.* pp. 1480-1482.
1894. BATESON, W.: *Materials for the Study of Variation*. London, 598 pp., 209 figs.
1901. — Heredity, Differentiation, and other Conceptions of Biology. *Proc. Roy. Soc. London*, lxix.
1901. — Introduction to Translation of Mendel's Versuche über Pflanzenhybriden. *Journ. R. Horticultural Soc.* xxvi. part 1.
1902. — Mendel's Principles of Heredity, a Defence. With a Translation of Mendel's Original Papers on Hybridisation. University Press, Cambridge, pp. xii + 212. [Indispensable as an exposition and corroboration of Mendel's conclusions.]
1902. — and Collaborators, Reports to the Evolution Committee, Royal Society of London: I. (1902), with Miss E. R. Saunders, 160 pp.; II. (1905), with Miss E. R. Saunders, R. C. Punnett, and C. C. Hurst, 154 pp.; III. (1906), with Miss Saunders and R. C. Punnett, 53 pp.
1903. — The Present State of Knowledge of Colour-Heredity in Mice and Rats. *Proc. Zool. Soc. London*, pp. 71-99.
1904. — Presidential Address, Section D, British Association, 1904, *Rep. Brit. Assoc. (Cambridge Meeting)*, pp. 574-589. [An

- invaluable introduction to the current study of variation and heredity.] See also *Nature* LXX., 1904, p. 406. (Cf. pp. 538, 601, 627.)
1904. — An Address on Mendelian Heredity and its Application to Man. *Brit. Med. Journ.* II., July 14, 1906, pp. 60-67.
1906. — Albinism in Sicily. *Biometrika* IV. p. 231.
1905. BATESON, W., and GREGORY, R. P.: On the Inheritance of Heterostylism in *Primula*. *Proc. Roy. Soc.* LXXVI. p. 581.
1859. BAUDEMONT, E.: Art. *Atavisme* in *l'Encyclopédie Pratique de l'Agriculteur* (de Moll et Gayot), II. 1859. [Cited by Sanson as an early and good exposition.]
1902. BEARD, JOHN: The Determination of Sex in Animal Development. Fischer, Jena.
1904. — Heredity and the Cause of Variation. *Biol. Centralbl.* XXIV. pp. 366-370.
1896. BEDDOE, JOHN: Selection in Man. *Science Progress* v. pp. 384-397.
1890. BEMMELEN, J. F. VAN: De Erfelykeid van verworpen Eigenschappen. 's Gravenhage. 279 pp. [An exhaustive history of opinion as to the transmission of acquired characters.]
1883. BENEDEN, E. VAN: Recherches sur la Maturation de l'Œuf, la Fécondation et la Division Cellulaire. Gnent, Leipsic and Paris. 289 pp., 126 figs.
1895. BERGH, R. S.: Vorlesungen über allgemeine Embryologie. Kreidel, Wiesbaden. 289 pp., 126 figs.
1883. BERNER: Ueber die Ursache der Geschlechtsbildung: eine biologische Studie. Christiania.
1905. BIFFEN, R. H.: Mendel's Laws of Inheritance and Wheat Breeding. *Journ. Agric. Sci.* I. pp. 4-48, 1 pl.
1896. BINSWANGER, O.: Pathologie und Therapie der Neurasthenie. Jena.
1902. BLACKMAN, V. H.: Recent Work on Hybridism in Plants. *New Phytologist* I. pp. 73-80, 97-105. [Mendelism.]
1903. BLANCHARD, N.: On Inheritance (Grandparent and Offspring) in Thoroughbred Racehorses. *Biometrika* II. pp. 229-233.
1882. BOLLINGER: Ueber Vererbung von Krankheiten. Stuttgart.
1888. BONNET, R.: Die stummelschwänzige Hunde, etc. *Anat. Anzeig.* III. pp. 584-606.
1881. BORN, G.: Experimentelle Untersuchungen über die Ent-

- stehung der Geschlechtsunterschiede. *Breslauer Aerztliche Zeitschrift*.
1894. BOS, J. RITZEMA: Untersuchungen über die Folgen der Zucht in engster Blutverwandschaft. *Biol. Centralbl.* XIV. pp. 75-81.
- BODIN: Dangers des Unions Consanguines.
1857. BOURGEOIS: Quelle est l'Influence du Mariage entre Consanguins? Thèse de Paris.
1894. BOURNE, G. C.: Epigenesis or Evolution. *Science Progress*, pp. 105-126.
- 1889b. BOVERI, TH.: Die Vorgänge der Befruchtung und Zellteilung in ihrer Beziehung zur Vererbungsfrage. *Verh. München Anthropol. Ges.* VIII. pp. 27-40, 2 pls.
1889. — Ein geschlechtlich erzeugter Organismus ohne mütterliche Eigenschaften. *S.B. Ges. Morph. Phys. München*, v. pp. 73-80; *Amer. Nat.* XXVII. (1893). pp. 222-232, 4 figs.
1891. — Befruchtung. Report in Merkel and Bonnet's *Anatomische Ergebnisse*, vol. 1. pp. 385-485, 15 figs.
1892. — Ueber die Entstehung des Gegensatzes zwischen den Geschlechtszellen und den somatischen Zellen bei *Ascaris megalocephala*. *S.B. Ges. Morph. Phys. München*, VIII. pp. 114-125, 5 figs.
1895. — Ueber die Befruchtungs- und Entwicklungsfähigkeit kernloser Seeigel-Eier. *Arch. Entwicklungsmech.* II, Heft 3.
1902. — Das Problem der Befruchtung. *Verh. Versammlung Deutscher Naturforscher und Aerzte*. Also, separately, Fischer, Jena. pp. 48, 19 figs.
1904. — Ergebnisse über die Konstitution der chromatischen Substanz des Zellkerns. Fischer, Jena.
1898. BRANDES, G.: Germinogonie, eine neue Art der ungeschlechtlichen Fortpflanzung. *Zeitschr. ges. Naturwiss. Halle*, LXX. pp. 420-422.
1895. BRANDT, A.: Ueber Variationsrichtungen im Tierreich. *Samml. wiss. Vorträge*, Heft 228, pp. 55. Hamburg.
- 1892-93. BREWER, W. H.: On the Hereditary Transmission of Acquired Characters. See Cope's *Factors of Organic Evolution*.
- 1892-3. — On the Hereditary Transmission of Acquired Characters. *Agricultural Science* VI. and VII.
1858. BROCA, P.: Mémoire sur l'Hybridité et sur la Distinction des Espèces Animales. *Journ. de Physiol.* I. pp. 432-471, 684-729; II. pp. 218-250, 345-390.

1859. BROCA, P. : Mémoire sur les Phénomènes d'Hybridité dans le genre humain. *Journ. de Physiol.* II. pp. 601-625 ; III. pp. 392-439.
1859. ——— Résumé des Faits relatifs aux Croisements des Chiens, des Loups, des Chacals, et des Renards. *Journ. de Physiol.* II. pp. 390-396.
1859. ——— Sur l'Influence durable de certains Croisements des Races. *Bull. Soc. d'Anthrop.* I. pp. 19-26.
1859. ——— Sur les Principaux Hybrides du Genre Equus, sur l'Hérédité des Caractères chez les Métis, et sur la Fécondité des Mules. *Journ. de Physiol.* II. pp. 250-258.
1860. ——— Documents relatifs aux Croisements des Races très différentes. *Bull. Soc. d'Anthrop.* I. pp. 337-342, 368-376.
1865. ——— On the Phenomena of Hybridity in the Genus Homo. Ed. by C. Carter Blake. Trans. London (1865) for Anthropol. Soc. Longman, pp. 76.
1888. BROCK, G. : Einige ältere Autoren über die Vererbung erworbener Eigenschaften. *Biol. Centralbl.* VIII. pp. 491-499.
1876. BROOKS, W. K. : On a Provisional Hypothesis of Pangenesis. *Proc. Amer. Assoc. ; Amer. Naturalist*, March 1877.
1883. ——— The Law of Heredity. Baltimore. 336 pp.
1895. ——— An Inherent Error in the Views of Galton and Weismann on Variation. *Science* I. pp. 121-126.
1896. ——— Lyell and Lamarck, a Consideration for Lamarckians. An Examination of Romanes' view of "Characters as hereditary and acquired." *Johns Hopkins Univ. Circ.* XV. pp. 75-76.
1896. ——— Lamarck and Lyell ; a Short Way with Lamarckians. *Nat. Sci.* VIII. pp. 89-93.
1899. ——— The Foundations of Zoology. New York and London. pp. viii + 339. [The author, Professor of Zoology in the Johns Hopkins University, here discusses in a series of lectures Nature and Nurture ; Lamarck, Galton and Weismann on Inheritance ; Galton and the Statistical Study of Inheritance, etc.]
1906. ——— Heredity and Variation : Logical and Biological. *Proc. Amer. Philosophical Soc.* XLV. No. 182. pp. 70-76. [A protest against the concept of a substance of inheritance as the residence of the species and the bearer of its qualities. The being of the individual organism is in the reciprocal interaction between it and its environment.]

1869. BROWN-SÉQUARD : Nouvelles Recherches sur l'Épilepsie due à certaines Lésions de la Moelle Épinière et des Nerfs Rachidiens. *Arch. Physiol. Norm. Path.* II. pp. 211-220, 422-437, 496-503, 5 pls., 6 figs.
- 1870-71. — Faits nouveaux concernant la Physiologie de l'Épilepsie. *Arch. Physiol. Norm. Path.* III. pp. 516-518.
- 1870-71. — Remarque sur l'Épilepsie causée par la Section du Nerf Sciatique chez les Cobayes. *Arch. Physiol. Norm. Path.* III. pp. 153-160.
1872. — Quelques Faits nouveaux relatifs à l'Épilepsie qu'on observe à la Suite de diverses Lésions du Système Nerveux chez les Cobayes. *Arch. Phys. Norm. Path.* IV. pp. 116-120.
1880. — Transmission par Hérité de certaines Altérations des Yeux chez les Cobayes. *Gaz. Médicale de Paris.*
1882. — Faits nouveaux établissant l'extrême Fréquence d'États Morbides produits accidentellement chez des Ascendants. *Comptes Rendus Acad. Sci. Paris*, vol. xciv. pp. 697-700.
1892. — Hérité d'une Affection due à une cause accidentelle. Faits et Arguments contre les Explications et les Critiques de Weismann. *Arch. Physiol.* xxiv. pp. 686-688.
1893. — Transmission Hérité de Caractères acquis. *Arch. Physiol.* pp. 209-210.
1895. BROWNE, E. T. : On the Variation of the Tentaculocysts of *Aurelia aurita*. *Quart. Journ. Micr. Sci.* xxxvii. pp. 245-251, 1 pl.
1861. BRÜCKE : Elementarorganismen. *Sitzungsberichte Akad. Wiss. Wien*. vol. XLIV (2) pp. 381-406. [Exposition of the need for assuming biological units ranking between the molecule and the cell.]
1882. BÜCHNER, L. : Die Macht der Vererbung und ihr Einfluss auf den moralischen und geistigen Fortschritt der Menschheit. *Darwinistische Schriften*, No. 12. 8vo, Leipsic, pp. 101.
1896. — Der Kampf um die Vererbung. *Die Zukunft* IV. pp. 280-281.
1892. BUCKMAN, S. S. : Some Laws of Heredity and their Application to Man. *Proc. Cotteswold Nat. Field Club*, x. pp. 258-321, fig. 7.
1896. BUCKMASTER, GEORGE A. : The Hereditary Transmission of Micro-organisms. *Sci. Progr.* v. pp. 324-334, Bibliogr.
1891. BUGNION, E. : Recherches sur le Développement post-

- embryonnaire, l'Anatomie et les Mœurs de l'Encyrtus fuscicollis. *Rec. Zool. Suisse*, v. pp. 435-536, 6 pls. [Polyembryony.]
1906. BUGNION, E.: La Polyembryonie et le Déterminisme Sexuel. *Bull. Soc. Vaudoise Sci. Nat.* XLII. pp. 95-112. See also *Arch. Sci. Phys. Nat.* xx. (1905) pp. 699-702.
1898. BUMPUS, H. C.: The Variations and Mutations of the Introduced Sparrow, *Passer domesticus*. *Biol. Lectures Wood's Holl*, 1896-7. Ginn & Co., Boston. pp. 1-15.
1901. BUTLER, A. W.: A Notable Factor of Social Degeneration. *Science*, XIV. pp. 444-453.
1905. BUTLER, E. J.: The Bearing of Mendelism on the Susceptibility of Wheat to Rust. *Journ. Agric. Sci.* I. pp. 361-363.
1878. BUTLER, SAMUEL: Life and Habit. London.
1879. — Evolution, Old and New; or, the Theories of Buffon, Dr. Erasmus Darwin, and Lamarck as compared with that of Mr. Charles Darwin. London, Ed. 2, 1882, pp. 430.
1902. CANNON, W. A.: A Cytological Basis for the Mendelian Laws. *Bulletin Torrey Bot. Club*, XXIX. and No. 197 of "Contributions from the Department of Botany of Columbia University."
1905. CASTLE, W. E.: Heredity of Coat Characters in Guinea-Pigs and Rabbits. Carnegie Inst. Washington, Publication No. 23. pp. 1-78, 6 pls.
1903. — Mendel's Law of Heredity. *Proc. Amer. Acad.* vol. XXXVIII. pp. 535-548; *Science*, XVIII. pp. 396-406.
1903. — The Heredity of Angora Coat in Mammals. *Science*, XVIII. pp. 760-761.
1903. — The Heredity of Sex. *Bull. Mus. Comp. Zool. Harvard*, XI. No. 4, pp. 189-218.
1903. — The Laws of Heredity of Galton and Mendel, and some Laws governing Race Improvement by Selection. *Proc. Amer. Acad.* XXXIX. No. 8. pp. 223-242.
1905. — Recent Discoveries in Heredity and their Bearing on Animal Breeding. *Popular Science Monthly*, July.
1906. — The Origin of a Polydactylous Race of Guinea-pigs. Carnegie Institution of Washington, Publication No. 49. pp. 17-29.

1906. CASTLE, W. E.; CARPENTER, F. W.; CLARK, A. H.; MAST, S. O., and BARROWS, W. M.: The Effects of Inbreeding, Crossbreeding and Selection upon the Fertility and Variability of *Drosophila*. *Proc. Amer. Acad.* xli. pp. 731-786.
1903. CASTLE, W. E., and ALLEN, G. M.: The Heredity of Albinism. *Proc. Amer. Acad.* xxxvii. pp. 603-622.
1903. CASTLE, W. E., and FARABEE, W. C.: Notes on Negro Albinism. *Science* xvii. p. 75.
1904. CHAPPLE, W. A.: The Fertility of the Unfit. Whitcombe & Tombs, Melbourne.
1907. CHATTERTON-HILL, GEORGE: Heredity and Selection in Sociology. A. & C. Black, London. pp. 571.
1875. COHEN, H. M.: Das Gesetz der Befruchtung und Vererbung. Beck, Nördlingen. pp. 47.
1898. COHN, L.: Die willkürliche Bestimmung des Geschlechts. 2nd ed. Stuber, Würzburg. pp. 41.
1891. COLLINS, F. H.: The Diminution of the Jaw in the Civilised Races, an Effect of Disuse. Williams & Norgate, London. pp. 16.
1900. CONN, H. W.: The Method of Evolution.
1905. CONSTABLE, F. C.: Poverty and Hereditary Genius. A Criticism of Mr. Francis Galton's Theory of Hereditary Genius. Fifield, London. pp. 149.
1887. COPE, E. D.: The Origin of the Fittest. New York.
1889. — On Inheritance in Evolution. *American Naturalist*, pp. 1058-1071.
1896. — The Primary Factors of Organic Evolution. Chicago. pp. 532.
1891. CORNEVIN, CH.: *Traité de Zootechnie Générale*. Paris. pp. 1088, 204 figs., 4 pls.
1900. CORRENS, C.: G. Mendel's Regeln über das Verhalten der Nachkommenschaft der Rassenbastarde. *Ber. Deutsch. Bot. Ges.* xviii. pp. 158-168.
1900. — Gregor Mendel's "Versuche über Pflanzen-Hybriden" und die Bestätigung ihrer Ergebnisse durch die neuesten Untersuchungen. *Botanische Zeitung* lviii. p. 229.
1900. — Ueber Levkoyenbastarde. Zur Kenntniss der Grenzen der Mendel'schen Regeln. *Botan. Centralbl.* lxxxiv. pp. 97-113.
1901. — Bastarde zwischen Maisrassen, mit besonderer Berücksichtigung der Xenien. *Bibliotheca Botanica*, Heft 53.

1901. CORRENS, C. : Ueber Bastarde zwischen Rassen von *Zea Mays*. *Ber. Deutsch. Bot. Ges.* XIX. p. 211.
1902. — Die Ergebnisse der neuesten Bastardforschungen für die Vererbungslehre. *Ber. Deutsch. Bot. Ges.* XIX. pp. 72-94.
1902. — Scheinbare Ausnahmen von der Mendel'schen Spaltungsregel für Bastarde. *Ber. Deutsch. Bot. Ges.* XX. pp. 159-172.
1902. — Ueber Bastardierungsversuche mit *Mirabilis* Sippen. *Ibid.* pp. 594-608.
1905. — Ueber Vererbungsgesetze. Berlin (Borntraeger). pp. 43, 4 figs. [An authoritative lecture giving an account of botanical experiments by one of the re-discoverers of Mendelism.]
1905. — Einige Bastardierungsversuche mit anomalen Sippen und ihre allgemeinen Ergebnisse. *Jahrb. wiss. Botanik.* XLI. pp. 458-484, 1 pl.
1905. — Zur Kenntnis der scheinbar neuen Merkmale der Bastarde. *Ber. Deutsch. Bot. Ges.* XXXIII. pp. 70-85.
1901. COSTANTIN, M. J. : L'Hérédité Acquisée. Naud, Paris. pp. 86.
1902. COUTAGNE, G. : Recherches Expérimentales sur l'Hérédité chez les Vers à Soie. *Bull. Scientifique de la France et de la Belgique*, XXXVII. pp. 1-194, 9 pls.
1877. CRAMPE : Kreuzungen zwischen Wanderratten verschiedener Farbe. *Landwirthschaft. Jahrb.* VI. pp. 384-395.
1883. — Zucht-Versuche mit zahmen Wanderratten. Resultate der Zucht in Verwandtschaft. *Ibid.* XII. p. 389.
1884. — Resultate der Kreuzung der zahmen Ratten mit wilden. *Ibid.* XIII. p. 699.
1885. — Die Gesetze der Vererbung der Farbe. *Ibid.* XIV. pp. 539-619.
- CUÉNOT, L. : L'Influence du Milieu sur les Animaux. Paris. pp. 176.
1896. — La Détermination du Sexe. *Bibliogr. Anat.* IV. pp. 14-15.
1899. — Sur la Détermination du Sexe chez les Animaux. *Bull. Scient. de la France et de la Belgique*, XXXII. pp. 462-535.
1902. — La Loi de Mendel et l'Hérédité de la Pigmentation chez les Souris. *Arch. Zool. Exp.* (Notes et Revue), p. 27 and p. 33 (1903); *Comptes Rendus Acad. Sci. Paris*, CXXXIV. pp. 779-781.
1903. — L'Hérédité de la Pigmentation chez les Souris. *Arch.*

- Zool. Exper.* I. (Notes et Revue), pp. 33-41; also *Ibid.* (1904) pp. 45-56.
1903. CUÉNOT, L.: L'Ovaire du Tatou et l'Origine des Jumeaux. *C. R. Soc. Biol. Paris*, LX. pp. 1391-1392.
1905. — Les Races Pures et leurs Combinaisons chez les Souris. *Arch. Zool. Expér.* III. (Notes et Revue), No. 7.
1892. CUNNINGHAM, J. T.: The Evolution of Flat-fishes. *Nat. Science* I. pp. 191-199. Cf. *Ibid.* VI. (1895) pp. 169-177, 233-239.
1896. — Lyell and Lamarckism. *Ibid.* VIII. pp. 326-331.
1900. — Sexual Dimorphism in the Animal Kingdom. London.
1890. DALL, W. H.: On Dynamic Influences in Evolution. *Proc. Biol. Soc. Washington*.
1902. DARBISHIRE, A. D.: Note on the Results of crossing Japanese Waltzing Mice with European Albino Races. *Biometrika* II. pp. 101-104, 4 figs.
1903. — Second Report on the Result of crossing Japanese Waltzing Mice with European Albino Races. *Biometrika* II. pp. 165-173, 6 figs.
1903. — Third Report on the Hybrids between Waltzing Mice and Albino Races. On the Result of crossing Japanese Waltzing Mice with "extracted" Recessive Albinos. *Biometrika* II. pp. 282-285.
1904. — On the Bearing of Mendelian Principles of Heredity on Current Theories of the Origin of Species. *Mem. and Proc. Manchester Lit. and Phil. Soc.* XLVIII. pp. 1-19.
1905. — On the Result of crossing Japanese Waltzing with Albino Mice. *Biometrika* III. pp. 1-51.

 Thomson (1906. Spencer's position)
 Weigert (1887)
 Ziegler (1902)

HORSES

- Blanchard (1903)
 Davenport (1904)
 Ewart (1899)
 Hurst (1904, 1906)
 Iwanoff (1905)
 Lee (1903)
 Pearson (1899)
 Weldon (1904)
 Wood (1905)

HYBRIDISATION IN ANIMALS

- Baillet (1893)
 Broca (1858, 1859)
 Coutagne (1902)
 Crampe (1877, 1883, 1884)
 Cuénot (1902, 1905)
 Doncaster (1903)
 Ewart (1899, 1901)
 Fischer (1874)
 Guaita (1898, 1900)
 Guyer (1900)
 Haecker (1904)
 Iwanoff (1905)
 Lang (1906)
 Pflüger (1882)
 Schuster (1905)
 Standfuss (1896)
 Stephan (1902, 1903)
 Suchetet (1896)
 Tutt (1898)
 Vernon (1898, 1903)

HYBRIDISATION IN PLANTS

- Bailey (1904)
 Bateson (1901, 1902, 1905,
 1906)
 Blackman (1902)
 Correns (1900, 1901, 1905)
 Focke (1881)
 Gärtner (1849)
 Godron (1863, 1864, 1865,
 1872)
 Hurst (1901, 1902, 1903)
 Kölreuter (1761)
 Lock (1904)
 Macdougall (1905)
 Macfarlane (1891)

HYBRIDISATION IN PLANTS (*contd.*)

- Mendel (1865, 1869)
 Millardet (1894)
 Nägeli (1865, 1866)
 Naudin (1865)
 Rimpau (1891)
 Spillman (1902)
 Tschermak (1900, 1901, 1903,
 1904)
 de Vries (1900, 1901, 1903,
 1905)
 Webber (1900)
 Wichura (1865)

INBREEDING

- Bos (1894)
 Castle, and others (1906)
 Ewart (1899)

INHERITANCE OF

- Fertility and Fecundity, Pearson (1899)
 Human Qualities, Büchner (1882), Lorenz (1898), Lucas (1847)
